# Franco Fernandez

Automation & AI

Buenos Aires, Argentina · francsfernandez23@gmail.com · linkedin.com/in/franco-fernández-00a9592ab

## PROFILE

I automate processes and build AI agents that work in production. I connect systems through APIs so that work runs every day without manual intervention.

I come from operations: I coordinated teams, audits and processes before moving on to automate them. That background helps me understand the business problem before choosing the tool. Today I work with LLMs, n8n, Power Automate and Python/JavaScript, and I study Industrial Engineering at UADE. I like to launch fast with what already exists and build custom only what is needed.

## EXPERIENCE

**Softtek · Automation + AI Developer** sep 2026 – now
Automations and integrations with REST APIs, Python and Power Automate, and embedding LLMs and agents into business processes.

**Integrados Argentinos · IT Automation & AI Specialist** 2024 – 2026
AI agents, WhatsApp + Odoo platform and 50+ automated workflows.

**Integrados Argentinos · Operations Coordinator & Audit Lead** 2020 – 2024
Led 18 operators, implemented 5S, designed procedures and coordinated inventory control.

**Independent · IT & infrastructure freelance** 2020 – now
Linux and Windows servers, VPNs, firewalls, DNS, Tienda Nube custom apps and API integrations.

**Importodoeste SRL · Sales Executive** 2018 – 2020
Sales on Mercado Libre, Tienda Nube, Instagram and Facebook.

## PROJECTS

**Autonomous AI agent for sales and after-sales** (n8n · Claude API · Tool use · Webhooks)
Handles inquiries end to end, from the first question to the closed sale. It cut response time from hours to minutes, increased conversions and has run with no manual intervention since 2024.

**WhatsApp + Odoo conversational platform** (Python · JavaScript · WAHA · Odoo ERP)
Sales reps manage their portfolio, quotes, products with price lists and order history from a single interface, with AI that starts conversations and drafts offers. A controlled-broadcast module eliminated WhatsApp account bans.

**50+ automated workflows** (n8n · Power Automate · REST · Webhooks)
Integrated through REST APIs and webhooks, they run 24/7.

**Mercado Libre promotions automation** (Browser automation · Claude · Mercado Libre)
A browser workflow activates and deactivates 300 to 500 promotions on its own.

**Competitor price intelligence** (Python · Scraping)
Scheduled monitoring of competitor prices through custom scraping.

**Second brain** (Obsidian · MCP · Claude)
Personal knowledge system built with Obsidian, MCP and Claude to query my notes in natural language.

## STACK

Claude API · OpenAI · DeepSeek · Tool use · MCP · RAG · Prompt engineering · AI-assisted development · n8n · Power Automate · Make · Blue Prism · WAHA · Browser + Scraping · Python · JavaScript · REST + Webhooks · SQL Server · DAX · Excel / VBA · Odoo · Power Apps · Copilot Studio · AI Builder · E-commerce APIs · Azure DevOps · Linux · Windows · VPN · Firewalls · DNS

## EDUCATION & CERTIFICATIONS

- **Industrial Engineering** — UADE, in progress since 2022
- **SAP Systems Diploma** — UADE, in progress since 2025
- **Google AI Professional Certificate** — Google / Coursera · April 2026 · ID KECYUUIUMTHC
- **Build Intelligent Agents Using DeepSeek & N8N** — Board Infinity / Coursera · April 2026 · ID 0BI6OMEV2BZI
- **Power Automate: Building and Managing Automated Workflows** — Whizlabs / Coursera · April 2026 · ID 56U4PNYL8YQA
- **Blue Prism Foundation Training** — Blue Prism / Coursera · June 2026
