SUMMARY

Automation & AI Engineer with 5+ years in operations and digital transformation: I start from the business problem and solve it with automation, AI and custom software. 50+ workflows running 24/7 (n8n and Power Automate), an AI agent handling 50+ inquiries a day end to end, a WhatsApp + Odoo conversational platform and internal tools connected to ServiceNow and Jira. Python and JavaScript (intermediate), REST APIs, LLMs (Claude, OpenAI, DeepSeek) and RPA (UiPath, Blue Prism).

CORE SKILLS

AI and LLMs	Claude, OpenAI and DeepSeek (APIs) · agents and tool use · MCP · RAG · prompt engineering · AI-assisted development · local AI
Automation and RPA	n8n · Power Automate · UiPath · Blue Prism (Foundation) · Make · WAHA (WhatsApp) · browser automation and scraping
Development	Python and JavaScript (intermediate) · REST APIs and webhooks · FastAPI · React · SQL Server · Excel/VBA · Git
Platforms and ITSM	ServiceNow · Jira · Odoo ERP · Power Apps and Copilot Studio · SharePoint · Azure and Azure DevOps · Tienda Nube · Mercado Libre API
Infrastructure	Linux and Windows Server · VPN · firewalls · DNS · Docker

PROFESSIONAL EXPERIENCE

Automation + AI Developer · **Softtek** — Sep 2026 – Present

- Design automations and integrations with REST APIs, Python and Power Automate.
- Embed LLMs and AI agents into business processes (prompt engineering and AI-assisted development).
- Work with the team's automation and AI tools: UiPath, Blue Prism, Azure and Microsoft, local AI and agent building.
- Built an internal ITSM ticket management tool (Power Apps and SharePoint) connected to ServiceNow and Jira, with automated data loading and extraction.

IT Automation & AI Specialist · **Integrados Argentinos** — 2024 – 2026

- Built a WhatsApp + Odoo conversational platform in Python and JavaScript (WAHA): sales reps manage their portfolio, quotes and orders from a single interface, with AI that starts conversations and drafts offers. A controlled-broadcast module eliminated account bans.
- Implemented with n8n and an LLM an autonomous agent that handles 50+ daily interactions end to end: response time cut from hours to minutes, running with no manual intervention since 2024.
- Design and maintain 50+ production workflows (n8n and Power Automate) with REST APIs and webhooks, 24/7.
- Automated scheduled competitor price monitoring (scraping) and the activation and deactivation of 300–500 promotions on Mercado Libre with AI browser automation.
- Administered the Linux and Windows servers, VPNs, firewalls and DNS where the solutions run.

Operations Coordinator & Audit Lead · **Integrados Argentinos** — 2020 – 2024

- Led 18 operators ensuring efficiency and meeting operational goals.
- Implemented 5S, designed operating procedures and coordinated inventory control.

IT & Infrastructure Freelance · **Independent** — 2020 – Present

- Linux and Windows servers, VPNs, firewalls and DNS; custom Tienda Nube apps and REST API integrations for multiple clients.
- Second brain (personal project): Obsidian, MCP and Claude to query my notes in natural language.

Sales Executive · **Importodoeste SRL** — 2018 – 2020

- Sales on Mercado Libre, Tienda Nube, Instagram and Facebook; in-person service and closing sales.
